To see if the Town will vote to install an 18" sewer main northerly on South Street to Fuller Street from the existing main at Maple Street together with all incidental work, and to raise and appropriate for the aforesaid purpose a sum not to exceed \$250,000.00 to be expended by and under the direction of the Sewer Commissioners, and to determine how said appropriation shall be raised, whether by appropriation of available funds, by borrowing or otherwise, and if by borrowing, to authorize the issuance and sale of bonds and notes of the Town therefore, or do or act in any manner relative thereto. (If by borrowing, $\frac{2}{3}$ vote required.)

ARTICLE 22. To see if the Town will vote to advise the Great and General Court not to appropriate for Fiscal Year 1982 more than it did for Fiscal Year 1981 for expenditures by the Commonwealth's departments and agencies. Further, that the savings of approximately \$350,000,000 from the above cuts be redistributed to the cities and towns in the form of increased local aid, or do or act in any manner relative thereto.

ARTICLE 23. To see if the Town will vote to amend Article 7 of the Special Town Meeting of December 16, 1974, which was unanimously voted and which created the present Council on Aging, by changing the number of members from seven (7) to nine (9) citizens, or do or act in any manner relative thereto.

ARTICLE 24. To see if the Town will vote to amend the Zoning By-Law so that the area of land situated on Washington Street and Taunton Street, shown on lots numbers 15, 16, 17, 18 and 167 of Sheet No. 3 of the Plainville Assessor's Map, comprising approximately 13.1 acres of land, shall be changed from CA to IA, or do or act in any manner relative thereto. ($\frac{2}{3}$ vote required)

ARTICLE 25. To see if the Town will vote to amend the Zoning By-Law so that the area of land situated on Washington Street and Taunton Street, shown as lot number 1 of Sheet No. 1, lot number 19 of Sheet No. 3, and lot number 23 of Sheet No. 4 of the Plainville Assessor's Map, comprising approximately 18.5 acres of land, shall be changed from CA and RB to IA, or do or act in any manner relative thereto. ($\frac{2}{3}$ vote required)

ARTICLE 26. To see if the Town will vote to change the zoning applicable to the following outlined area of land from zoning district RC to zoning district RB as defined in the Zoning By-Laws. Beginning at a point on the south westerly side of the old railroad bed at the North Attleboro town line, thence along the railroad on the westerly side north to the property of Plainville Coal & Oil Co., thence westerly approximately 200' to a point approximately 200' away from Fletcher Street, thence north west approximately 500' to West Bacon Street then westerly approximately 200' to the corner of Fletcher Street, thence across West Bacon Street in a north westerly line approximately 700' along Power Co. Easement then in a westerly direction across Valerie Drive across Walnut Street south westerly to Warren Street, then in a southerly direction to the North Attleboro town line, thence north easterly to the old railroad bed, or do or act in any manner relative thereto. ($\frac{2}{3}$ vote required)

ARTICLE 27. To see if the Town will vote to amend the Zoning By-Law so that the area of land situated on the easterly side of South Street known as Lot No. 104 on Sheet No. 8 of the Plainville Assessor's Maps comprising approximately sixty acres of land is changed from Zoning District RA to zoning District RC as defined in the Zoning By-Laws, or do or act in any manner relative thereto. ($\frac{2}{3}$ vote required)

ARTICLE 28. To see if the Town will vote to amend Chapter 1 of the General By-Laws of the Town by adding a new section 23 as follows, or do or act in any manner relative thereto.

1. The purpose of this by-law is to protect the floodplains and wetlands of the Town of Plainville by controlling activities deemed to have a significant effect upon wetland values, including but not limited to the following: public and private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, fish, wildlife, recreation and aesthetics.

2. Any person desiring to know whether or not a proposed activity or an area is subject to this by-law may request a determination from the Conservation Commission in writing. The Conservation Commission shall issue its determination, in writing, within twenty-one (21) days from the receipt of such request.

3. No person shall remove, fill, dredge, alter or build upon or within one hundred feet of any bank, fresh water wetland, flat, marsh, meadow, bog, swamp or lands bordering on any creek, river, stream, pond or lake, or any land under said waters or any land subject to flooding, other than in the course of maintaining, repairing or replacing, but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public and used to provide electric, gas, water, sanitary sewer, storm drainage, public roadway, telephone, telegraph or other telecommunication services, without filing written Notice of his intention to so remove, fill, dredge, or alter and without receiving and complying with an Order of Conditions and provided all appeal periods have elapsed. Such Notice shall be sent by certified mail to the Plainville Conservation Commission, including such plans as may be necessary to describe such proposed activity and the effect on the environment.

4. Except for the following supplemental information, the same Notice of Intent, plans and specifications required to be filed by an applicant under Massachusetts General Laws, Chapter 131, section 40 will be accepted as fulfilling the requirements of this by-law. Additional information shall include but not be limited to the following: percolation rates and environmental impact data on erosion, sedimentation, wildlife, recreation and aesthetics.

The said Conservation Commission shall hear any oral presentation under this by-law at the same public hearing required to be held under the provisions of said Chapter 131, section 40 of the Massachusetts General Laws. Definitions, timeframes, and procedures, insofar as applicable, set forth in said Chapter and section and in the regulations promulgated by the Department of Environmental Quality Engineering on July 28, 1978 are hereby made a part of this by-law.

5. Wetland Protection:

A primary use building shall not be constructed on any residential lot as defined in the Town of Plainville zoning by-law, chapter 111, sec. 2.6,* which contains, exclusive of a permanent body of water, 20% or more swamp and wetland, specifically referred to as Soil Association 2 and 3 as shown on the Soil Association Map dated February 1979 and on file with the Planning Board and the Town Clerk.

**Revised April, 1978*

6. The term "person", as used in this by-law, shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth whenever subject to town by-law, or any political subdivision of the Commonwealth whenever subject to town by-law, administrative agency, public or quasi-public corporation or body, or any other legal entity or its legal representative, agents or assigns.

7. The Conservation Commission, its agent officers and employees, may enter upon the land upon which the proposed work is to be done in response to a request for a prior determination or for the purpose of carrying out its duties under this by-law and may make or cause to be made such examination or survey as deemed necessary.

8. The Conservation Commission is empowered to deny permission for any removal, dredging, filling or altering of subject lands within the Town if, in its judgement, such denial is necessary for the protection of all wetland values as described in section 1 of this by-law.

9. The Conservation Commission may, as an alternative to a denial, impose such conditions as it deems necessary to contribute to the protection and preservation of the subject lands in accordance with the purposes of this by-law.

The Conservation Commission may require the posting of a bond with surety, running to the municipality, and sufficient as to form and surety in the opinion of the Commission's

Counsel, to secure faithful and satisfactory performance of work required by any Order of Conditions, in such sum and upon such conditions as the Conservation Commission may require.

Other evidence of financial responsibility which is satisfactory to the Conservation Commission may be accepted in lieu of bonding. Notwithstanding the above, the amount of such bond shall not exceed the estimated cost of the work required or the restoration of affected lands and properties if the work is not performed as required, whichever is greater. Forfeiture of any such bond or other security shall be recoverable at the suit of the municipality in Superior Court.

Such bond or other security shall be released upon issuance of a Certificate of Compliance.

10. The Notice required by the third paragraph of this by-law shall not apply to emergency projects necessary for the protection of the health and safety of the citizens of Plainville and to be performed or ordered to be performed by an administrative agency of the Commonwealth or by the Town. Emergency projects shall mean any projects certified to be an emergency by the Commissioner of the Department of Environmental Quality Engineering and the Conservation Commissioner if this by-law and the Massachusetts General Laws Chapter 131, section 40, as amended, both are applicable, or by the Conservation Commission if only this by-law is applicable. In no case shall any removal, filling, dredging or altering authorized by such certification extend beyond the time necessary to abate the emergency.

The provisions of this by-law shall not apply to any mosquito control work done under the provisions of clause (36) of section five of chapter 40, or chapter two hundred and fifty-two.

The provisions of this by-law shall not apply to any work performed for normal maintenance or improvement of lands in agricultural use as of the effective date of this by-law.

11. The invalidity of any section or provision of this by-law shall not invalidate any other section or provision thereof.

(2/3 Vote Required)

ARTICLE 29: To see if the Town will vote to authorize the Board of Selectmen to enter into a contractual agreement with the Southeastern Regional Planning and Economic Development District for participation in a shared planner program contingent on participation by one or more additional towns. To raise and appropriate a sum of money *not to exceed \$6,500* as the Town's share of said program and to authorize the Board of Selectmen to apply for and accept on behalf of the Town any federal or state money which may become available to pay in part for said shared planner's services, or do or act in any manner relative thereto.

ARTICLE 30: To see if the Town will authorize the Planning Board to enter into a contractual agreement with the Southeastern Regional Planning and Economic Development District for the provision of professional planning assistance and raise and appropriate a sum of money *not to exceed \$2,500* to be expended under the direction of the Planning Board in accordance with the terms of said contractual agreement, or do or act in any manner relative thereto.

ARTICLE 31: To see if the Town will vote to raise and appropriate the sum of \$3,600.00 for the purpose of providing an Energy Technical Audit for town buildings, necessary to apply for Energy Conservation Funds through State and Federal grant programs, such funds to be expended under the direction of the Energy Coordinator, or do or act in any manner relative thereto.

ARTICLE 32: To see if the Town would vote to raise and appropriate the sum of \$750.00 to fund physical examinations for town employees, such sum to be expended under the direction of the Personnel Board, or do or act in any manner relative thereto.

ARTICLE 33: To see if the Town will vote to fix the salary and compensation of all elective officers of the Town as provided by Section 108 of Chapter 41, General Laws, as amended as follows:

MINUTES OF THE ANNUAL TOWN MEETING Monday, April 13, 1981

The Annual Town Meeting of the Town of Plainville was held in the auditorium of the Beatrice H. Wood School on Monday, April 13, 1981 and was called to order at 7:32 P.M. by Moderator David Lomasney.

Bounds of the hall were set as being the chairs set up on the auditorium floor for registered voters only, all others to be seated in the bleachers.

Town Clerk Kathleen Sandland was appointed Ballot Box Officer in case of a ballot vote, to be assisted by Joan Clarke.

Counters appointed to the Moderator's left were Kenneth Cox and Geraldine Perry, to the Moderator's right, Marie Soper and Raymond Clontz.

The Moderator stated that all amendments must be in writing and all discussion directed through the Chair.

Following the reading of the warrant, the invocation was given by the Reverend David Hoyt of the Plainville United Methodist Church.

A total of 239 voters were checked into the hall by means of the Registrars' Voting Lists.

ARTICLE 2: Motion by Edward Serwinski, seconded by Arthur Roy that Edgar Peavey, Edward Orlando and George Brown be appointed Fence Viewers and Field Drivers, and that Ronald Fredrickson, Robert Proal and Everett Skinner, Sr. be appointed Measurers of Wood, Bark and Lumber for the ensuing year.

UNANIMOUS VOTE

Motion by Edward Serwinski, seconded by John Stone that Attorney John Lee, Robert Brothers, Dr. Richard Cashman, Arthur Sylvester, William Costa, Jane Smith, Attorney John Pollis, Attorney Michael Duggan and Irvin Petkin be allowed to speak before this meeting.

UNANIMOUS VOTE

ARTICLE 3: Motion by John Stone, seconded by Edward Serwinski that the reports of the Selectmen, Treasurer and other Town Officers be accepted as printed, with the exception of any errors and omissions.

Motion by Marcia Benes, seconded by Robert Spitler to amend Article 28 as follows:

SECTION XXIII — WETLANDS PROTECTION

- 23.1 The purpose of this by-law is to protect the floodplains and wetlands of the Town of Plainville by controlling activities deemed to have a significant effect upon wetland values, including but not limited to the following: public and private water supply, groundwater, flood control, erosion and sedimentation control, storm damage prevention, water quality, fish, wildlife, recreation and aesthetics.
- 23.2 Any person desiring to know whether or not a proposed activity or an area is subject to this by-law may request a determination from the Conservation Commission in writing. The Conservation Commission shall issue its determination in writing, within twenty-one (21) days from the receipt of such request.
- 23.3 No person shall remove, fill, dredge, alter or build upon or within one hundred feet of any bank, fresh water wetland, flat, marsh, meadow, bog, swamp or lands bordering on any creek, river, stream, pond or lake, or upon or within one hundred feet of any land under said waters, any land subject to flooding or inundation, or the 100-year storm line, other than in the course of maintaining, repairing or replacing, but not substantially changing or enlarging an existing and lawfully located structure or facility used in the service of the public and used to provide electric, gas, water, sanitary sewer, storm drainage, public roadway, telephone, telegraph or other telecommunication services, without filing written notice with the Conservation Commission of his intention to so remove, fill, dredge, or alter, including such plans as may be necessary to describe such proposed activity and its effect on the environment and without receiving and complying with an order of conditions and provided all appeal periods have elapsed.
- 23.4 The notice of intention which must be filed with the Conservation Commission under and in accordance with the provisions of Massachusetts General Laws, Chapter 131, Section 40, shall constitute the notice of intention, which is required under Section 23.3 of this by-law, provided however, that the plans submitted therewith describing the proposed activity and its effect on the environment shall include information on percolation rates and environmental impact data on erosion, sedimentation, wildlife, recreation and aesthetics and such other information as the Conservation Commission may from time to time require.
- 23.5 The public hearing which the Conservation Commission is required to hold under the provisions of said Chapter 131, Section 40 of the General Laws on any such notice of intention shall also constitute the public hearing with respect to any proposed activity which requires the Conservation Commission's approval under this by-law. The definitions, timeframes and procedures, insofar as they are applicable, set forth in said Section 40 of Chapter 131 and in the regulations promulgated thereunder by the Massachusetts Department of Environmental Quality Engineering are hereby made a part of this by-law.
- 23.6 A primary use building shall not be constructed on any residential lot as defined in the Town of Plainville Zoning By-Law, Chapter III, Section 2.6, which contains, exclusive of a permanent body of water, twenty percent (20%) or more swamp and wetland, specifically referred to as Soil Association 2 and 3 on the Soil Association Map, dated February 1979 and on file with the Planning Board and Town Clerk.
- 23.7 The term "person", as used in this by-law, shall include any individual, group of individuals, association, partnership, corporation, company, business organization, trust, estate, the Commonwealth whenever it is subject to Town by-law, any political subdivision of the Commonwealth whenever it is subject to Town by-law, administrative agency, public or quasi-public corporation or body, or any other legal entity or its legal representative, agents or assigns.
- 23.8 The Conservation Commission and its agents, officers and employees may enter upon the land upon which the proposed work is to be done in response to a request for a prior determination or

for the purpose of carrying out its duties under this by-law and may make or cause to be made such examination or survey as deemed necessary.

- 23.9 The Conservation Commission is empowered to deny permission for any removal, dredging, filling, or altering of subject lands within the Town if, in its judgment, such denial is necessary for the protection of all wetland values as described in Section 23.1 of this by-law.
- 23.10 The Conservation Commission may, as an alternative to a denial, impose such conditions as it deems necessary to contribute to the protection and preservation of the subject lands in accordance with the purpose of this by-law.
- 23.11 The Conservation Commission may require the posting of a bond with surety, running to the Town and sufficient as to form and surety in the opinion of the Commission's legal counsel, to secure faithful and satisfactory performance of the work required by any Order of Conditions in such sum and upon such conditions as the Commission may require. Other evidence of financial responsibility which is satisfactory to the Commission may be accepted in lieu of bonding. Notwithstanding the above, the amount of such bond or other security shall not exceed the estimated cost of the work required or the restoration of affected lands and properties if the work is not performed as required, whichever is greater. Forfeiture of any such bond or other security shall be recoverable at the suit of the Town in Superior Court. Such bond or other security shall be released upon issuance of a Certificate of Compliance.
- 23.12 The notice of intention required by Section 23.3 of this by-law shall not apply to emergency projects necessary for the protection of the health and safety of the citizens of the Town and to be performed or ordered to be performed by an administrative agency of the Commonwealth or by the Town. Emergency projects shall mean any projects certified to be an emergency by the Commissioner of the Department of Environmental Quality Engineering and the Conservation Commissioner if this by-law and said Section 40 of Chapter 131 of the General Laws are both applicable, or by the Conservation Commission if only this by-law is applicable. In no case shall any removal, filling, dredging or altering authorized by such certification extend beyond the time necessary to abate the emergency.
- 23.13 The provisions of this by-law shall not apply to any mosquito control work done under the provisions of clause (36) of Section 5 of Chapter 40 of the General Laws or under any special act and shall not apply to any work performed for normal maintenance or improvement of land in agricultural use as of the effective date of this by-law.
- 23.14 The Conservation Commission, after due notice and public hearing, may promulgate rules and regulations to effectuate the purposes of this by-law. Failure by the Commission to promulgate such rules and regulations or a legal declaration of their invalidity by a court of law shall not act to suspend or invalidate the effect of this by-law.
- 23.15 Any person who violates any provision of this by-law or of any condition of a permit issued pursuant to it shall be punished by a fine of not more than \$200.00. Each day or portion thereof during which a violation continues shall constitute a separate offense; if more than one, each condition violated shall constitute a separate offense. This by-law may be enforced by a Town police officer or other officer having police powers pursuant to the provisions of Massachusetts General Laws, Chapter 40, Section 21D and Section XXII of the Town By-Laws. Upon request of the Commission and the Board of Selectmen, Town Counsel shall take such legal action as may be necessary to enforce this by-law and permits issued pursuant to it.
- 23.16 The invalidity of any section or provision of this by-law shall not invalidate any other section or provision thereof.

Motion by Chief Skinner, seconded by Charles Doran to postpone Article 28 indefinitely until prepared so people can see what is being voted.

Question called by Charles Doran, seconded by Stanley Widak to stop debate on postponement.
Result of vote — Yes, 117; No — 14.

MINUTES OF ADJOURNED SESSION OF ANNUAL TOWN MEETING

Adjourned Session of April 13 to April 21 to April 27, 1981

The meeting was called to order at 7:32 P.M. A total of two hundred seventeen voters were checked in for the evening by means of the registrar's voting list.

The Moderator stated that the same rules applied as for the previous sessions. Only registered voters to be seated in chairs on the auditorium floor; all non-registered people to be seated in the bleachers. Only those seated in chairs will be counted on a standing vote.

Ballot Box Officer in case of a ballot vote to be Town Clerk Kathleen Sandland, assisted by Joan Clarke.

All amendments must be in writing and all discussion directed through the Chair.

Counters appointed to the Moderator's left were Kenneth Cox and Ronald Dix; to the Moderator's right, Sandra Stockwell and Marie Soper.

The Moderator explained that "Town Meeting Time" which are the rules that our Town Meetings are governed by do not require that a motion for reconsideration be made by a party voting in favor of the original motion.

Three requests for reconsideration of articles had been received by the Town Clerk (see minutes of previous session) and were the first order of business.

Annual Report
of the
SCHOOL COMMITTEE
of
PLAINVILLE, MASSACHUSETTS

FOR THE FISCAL YEAR ENDING JUNE 30, 1981

REPORT OF THE SCHOOL COMMITTEE

This was a year of great challenge for the Plainville School Committee, but we feel the School Department is now a stronger and more viable organization.

In November we were all saddened by the untimely passing of our beloved Superintendent Edward L. Keaney. Mr. Keaney had gained the love and respect of all who knew him.

With the advent of Proposition 2½ and the search for a new Superintendent ahead of us, the Committee decided to seek the advice of an outside educational consultant to help us assess our real needs. Due to the steady decline in enrollment, and working within the guidelines of Proposition 2½, we combined the position of Superintendent and Principal. We appointed a Teaching Assistant Principal for each of the schools to assist the Superintendent/Supervising Principal in covering the buildings. Our new Superintendent/Supervising Principal, Mrs. Elizabeth S. Silvester, has proven to be an outstanding leader. She has brought to the system strong leadership and a new direction in education. She has a true dedication to the young people of our community.

Chapter 766 is still with us and the demands it presses on us are great, but the needs of all the children are being met.

It has become necessary this year because of Proposition 2½ to charge a fee for outside organizations using the school facilities. It is no longer possible to absorb the extra expense of heat and electricity.

It was also necessary to enforce a one mile walking limit for the pupils attending Wood School. This made it possible to decrease our buses by four.

The Committee re-organized the lunch program and eliminated one position. We also increased the cost of lunches in hopes of bringing the program into line and keep it solvent. The maintenance account is very low this year and the Committee feels that it owes Head Custodian, Eugene Senior, a great deal of appreciation and thanks. It is because of his ability and willingness to maintain all equipment in both buildings that this account has not gotten out of control.

This year an open communication policy between the Teachers' Association and the School Committee has been established. We are continuing to look at our program in terms of long range needs, and because of the possibility of future fiscal restraints may, in fact, need to re-organize further.

We would like to thank Mrs. Gertrude Lunn for her continual guidance and help through some very trying circumstances. We would like to thank all other individuals who have given so much of themselves to better the educational process of all of our youngsters.

Respectfully submitted,

NANCY H. LOEW

Chairperson

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Plainville School Committee:

In this first town report which I am submitting to you, I will highlight those areas which have stood out as most important since this school year has begun. My approach to a situation is that I study the problem, examine all the issues, listen carefully, discuss what is necessary with the appro-

priate people and then proceed with a plan of action. It is my intent to keep the School Committee, parents and community at large well informed of all activities within the school, as well as the fiscal status of the school budget at any given time.

As was pointed out in a School Committee meeting, the administrative re-organization established by the School Committee did accomplish what the School Committee set out to do. The percentage of administrative salaries has decreased this year and the actual fiscal data involved in the administrative re-organization follows:

DATA COMPILED FROM THE WOOD AND JACKSON SCHOOLS

1980-81		1981-82	
Superintendent	\$31,515	Superintendent/Principal	\$33,500
Principal	22,260		
Teaching Assistant Principal	1,000	Teaching Assistant Principal	2,000
Head Teacher	100		
*4th Grade Teacher	<u>12,030</u>	*4th Grade Teacher	<u>20,240</u>
TOTAL	\$66,905	TOTAL	\$55,740
1981-82	Actual money differential	\$11,165.00	
1981-82	Percentage differential	17%	

* The fourth grade teacher salary is considered part of the administrative re-organization data; the principal became a fourth grade teacher.

In compiling this data, I also investigated enrollment figures and numbers of teachers in the system and it works out that the Plainville School System has a ratio of teacher to student of 1:24. According to state standards this ratio should not exceed 1:25, therefore, the ratio which is in place at this point is well within recommended guidelines. At this point, I do not see further need to reduce the teaching staff.

Because of the fiscal constraints imposed upon the town due to Proposition 2½, the transportation policy has been revised so that we are now using six buses instead of ten. Although the buses are filled and the routes are longer, the transportation system is working very well. There is still a \$7,000. budget deficit in the transportation account and this will affect the number of field trips that will be taken this year by the children in both schools.

I am mindful of the fiscal problems surrounding the school lunch program and also aware of the fiscal constraints imposed upon the town with the new federal and state reimbursements. We began this year with abolishing the position of Lunchroom Supervisor and created the position of Head Cook. This new position was filled by an existing staff member, thus reducing the salary by one person taken out of the revolving account. With better cafeteria management and the reduction of money taken from the revolving account, we hope to alleviate a good deal of the financial difficulty that has been experienced in this area over the past seven years.

From an educational aspect, a Language Review Committee has been created in both schools with a teacher representative from each grade level. This committee has submitted a report to me outlining meeting times when they will be examining curriculum materials and planning budget items for the 1982-83 budget which is yet to be built.

The K-11 program has been changed this year so that the K-11 children are integrated into the first grade classrooms in the afternoon, as well as receiving academic instruction as a group one hour per day in the afternoon. Staff members who work with the K-11 children have already met with the parents of these children where the new program was outlined and explained.

A new first grade teacher was hired this year who possesses a Masters in reading and has had clinical experience in working with an innovative reading program. She is piloting a new reading

program with a group of children in the first grade classroom this year. The staff will study the results of this pilot program and make recommendations for budget items in the area of reading.

In the area of curriculum development, there is much that remains to be done and this objective has high priority on my list of goals.

In conclusion, I would like to thank the School Committee, the staff, the parents and the town departments in helping me to assume my responsibilities in this position of Superintendent of Schools.

Sincerely,

ELIZABETH S. SILVESTER

Superintendent of Schools

REPORT OF THE CHAIRMAN

The school year can be characterized as one of achievement in difficult times and one of increased determination on the part of the district to become as cost efficient as possible. The tax cap placed a financial limit upon the schools that did not meet the problems of inflation, energy costs and general salary increases. In consequence, staff and material cuts were necessary. The deletions were made judiciously and the quality of basic programs retained.

It appears that the passage of Proposition 2½ will be more damaging. The cutting of the fiscal year 1982 net budget below fiscal year 1981 means that all salary increases, a new bus contract, the cost of inflation and energy costs increases must not only be absorbed within the present budget level, but more reductions must still be made to meet the reduced spending level established by the law.

We shall conform to the law and attempt to minimize the effect upon students to the extent possible. Unfortunately, it appears that there must be substantial cuts in present services to meet the demands of the new law. It seems that FY82 will be very difficult with perhaps, but not necessarily, some legislative relief in FY83 to offset unintended effects.

The Report of the Superintendent illustrates changes and events of the last school year. There are several additional important notes. The Basic Skills Improvement Program (competency testing) has been approved and grade nine students were tested during the 1980-1981 school year in the areas of mathematics, reading and writing. Results are available to students, parents and the general public. The academic and vocational special needs programs are well-developed, very effective and highly regarded. The Energy, Safety and Handicapped Barrier Removal Committee has effected a 27% energy savings and been very active in the two other areas in its title, serving both as monitor and projects director.

We are successfully pursuing federal aid at all levels to supplement local funds.

Gifted-talented programs are under development in all schools. The College Academy at Framingham State College, MIT Advanced Programs for High Schools, Great Books, Dean Junior College and computer science courses are also being utilized.

We are pleased that our rate of serious discipline cases is relatively low and that our drop-out rate is one of the lowest, if not the lowest, in the state.

Everything considered, it has been a very good year and, although Proposition 2½ clouds our financial future, we shall meet it with optimism and energy. In the long run the public will have the kind of schools it wants and is willing to support. We feel the public demands educationally effective and cost efficient schools. We shall continue to work toward those goals even more strenuously in the future than we have in the past. The combined efforts of the School Committee, communities served, students, parents, faculty and administration can realize the unique potential of the regional district and attain the goal of an ever greater quality of education for each student.

MARSHA ROBBINS, *Chairman*

King Philip Regional School District Committee

REPORT OF THE SUPERINTENDENT

I herewith submit my ninth annual report as Superintendent of the King Philip Regional School District.

The past year has been one of extreme effort and involvement by the staff and students of the District within their individual and combined areas of education. It was also a year marked by a tragedy in our education community.

This year two of our fine young staff members, Gerald E. Kamon, Automotive Instructor, King Philip Regional Vocational High School and Stanley V. Glowinski, Social Studies Teacher, King Philip Regional School — North, passed away. They were teachers who possessed great professional knowledge combined with a superb ability to convey those skills to students. More importantly, they set examples worthy of emulation. Their students were loyal, their colleagues were friends and their personal qualities were admired by all who knew them. They were concerned about their students and committed to their profession. They will most assuredly continue to be missed by all of those who worked with them in the District or remember them as their teachers.

Junior High School

The junior high school has updated Curriculum Guides for all subjects with the most noticeable changes in the Foreign Language and PACE programs. Students who were in the Foreign Language Program previously took either French or Spanish in the seventh grade; now students have both French and Spanish in the seventh grade and then select which language they will take in grade eight. The Practical Arts Career Education (PACE) program has been changed to allow students to take these programs every day as compared with only two days per week the year before.

The gifted program continues under the volunteer efforts of the teachers and remedial classes are available in all areas but most concentrated in the reading program.

Backing up the strong intramural program was the first full year of boys and girls interscholastic basketball for both grades seven and eight. In addition, a remedial physical education program helps those youngsters with special needs in this area.

A school newspaper written by the students was published. A TRS-80 Microcomputer has been acquired and is used by the pupils and the teachers as a teaching/learning tool.

The first Science Fair was successful. It is planned to continue this as an annual event. The greenhouse has finally become a reality and was fully operative in the spring of 1981.

At the end of the school year, those students with high academic achievement are honored with an Awards Program held in the evening with parents attending.

Senior High School — Academic Division

Community involvement has been increased thru several activities including a formal parent advisory group that meets monthly in the evenings to discuss topics of interest. Other workshops with staff and the community were developed in conjunction with the clergy, police and visiting nurses. Parents and students were also utilized in search/screening committees for the new Band Director and Assistant Principal/Director of Student Services.

The academic program was enhanced by new activities. The first academic awards evening was conducted. The process of identifying and providing some individualization for gifted/talented students has begun. These have been tested and their programs modified. Several students took part in the MIT High School Studies Program. Plans were developed for a student exchange program with France.

A large scale election simulation was carried out under the direction of the social studies department.

Very importantly, for the first time all ninth and tenth grade vocational students have been integrated into regular English and Social Studies classes.

Senior High School — Vocational Division

The vocational division of the senior high school continued to undertake a variety of projects that benefit the students, the schools and the regional communities. There are certainly educational and financial advantages, but it is also important to note that without vocational assistance many of the worthwhile tasks could never have been accomplished.

A home was constructed in Wrentham for Mr. and Mrs. John Blenkiron. This represented the twenty-first home built by the school.

Other large construction projects included greenhouses for the science students at the junior and senior high schools. A large renovation project was completed in the reconstruction of the small engines laboratory and the automotive tune-up laboratory in the detached garage behind the high school. Another major renovation was the relocation and extension of dust collecting systems for the

sheet metal, carpentry and plumbing shops to produce a higher clean air level to preserve student and instructor health.

To assist the special needs program a standard classroom was sub-divided into three units at King Philip — North providing more flexible smaller spaces.

A rotary oven was installed and wired in the food services laboratory. Machines were wired and lighting fixtures installed in the special needs resource areas, drafting room, graphics area and food services related classroom. Additionally a lavatory was created in the carpentry shop for special needs-handicapped students. A sink was installed in the business education classroom, a cabinet was built to house one of the high school's computers, a business office was constructed in the school store and overhead fans were installed in the automotive and machine shops to direct wasted overhead heat to the floor level. Another energy conservation project was the blocking in of two overhead doors in the automotive shop.

The vocational division, instructors and students, are obviously devoting an increasing amount of time in improving the facilities and physical plant in the high school building with minimal financial expenditures.

Department of Student Services

The Department of Student Services has worked to extend its services to students and staff as well as to develop a higher level of visibility.

The Department presents the very important freshman orientation program as well as the orientation of eighth grade students to the academic and vocational high schools. A student services booklet is presented to all new students.

More than fifty college representatives visited the regional high school. There was also a military career day. The juniors were invited to a college fair in Boston with about 150 attending, and both juniors and seniors receive the student services newsletter that contains a wealth of information concerning colleges and financial aid. As a further assistance college application procedures have been discussed with all seniors and a financial aid night conducted for students and parents.

The high school is a testing site for the College Entrance Examination Board and the Armed Services Vocational Battery Aptitude Test.

Department of Special Services

The past year has seen another significant increase in the Special Needs population in the District. The junior high school seems to have stabilized at 75 to 90 students, but the high school has grown from less than 55 students in September of 1978 to more than 105 in September of 1980 and will be approximately 140 students for the 1981-82 school year.

The school year was a good year for teachers' training programs related to special needs. Through Lesley College we offered a Learning Disabilities course for all staff. The special needs staff and guidance counselors attended a workshop which provided training in the writing of Individual Educational Plans. Finally, the BICO Low Incidence Special Needs collaborative provided a workshop for administrators which explained all of their programs.

Looking to the future, we anticipate a leveling off in the growth of special needs within the next three years. Costs, however, may continue to rise based on State and Federal support of these programs. We have a fine staff that continues to improve with experience and, coupled with the unique comprehensive educational program which King Philip offers, can create programs and present opportunities that prepare our students to be successful adults both personally and professionally.

Conclusion

In spite of our present financial problems the future looks very bright for King Philip. I am optimistic about our programs because our administrators and staff recognize our needs and are not deterred but accept the challenge of improving themselves and their departments. They are capable of meeting their high objectives.

The passage of Proposition 2½ dramatically increases the problem of financial support. We shall do our absolute best with the funds that we receive, but in a time of rampant inflation, increasing energy costs and collective bargaining it is unrealistic to believe substantially and continually decreased budgets will provide sufficient long term funding for maintaining and improving the schools.

If there is no relief within the next few years, it may be necessary for the community to reassess some of its expectations. Maximum value should be received for expenditures made, but all of us realize that quality in any endeavor has certain costs which can be somewhat reduced, sometimes delayed, but never eliminated.

The School Committee has actively participated and supported us in our many endeavors. Its leadership and cooperation remain active and vital. I also sincerely appreciate the efforts of our students, their parents, teachers, guidance counselors, nurses, custodians, office personnel, cafeteria workers and administrators in all of our schools. The success of the schools is dependent upon the interaction of all who teach, learn, serve and support the schools of the regional district.

WILLIAM J. COSTA

REPORT OF THE HIGHWAY DEPARTMENT

To the Honorable Board of Selectmen:

I herewith submit my report of the Highway Department for the year July 1, 1980 to June 30, 1981.

The Plainville Highway Department has had a busy year with many projects started and completed.

Mr. Everett Skinner retired as Highway Superintendent, completing many years of dedicated service. We are fortunate that through his untiring efforts our roads are in excellent condition. Best wishes to Everett on his well-earned retirement.

Highway Maintenance:

Highway Department employees have swept sidewalks and roads throughout the town. Roads have been patched with cold mix. Brush has been cut along roadways. (We are hampered in brush cutting by the lack of a functioning tractor-mounted brush cutter and by the large amounts of poison ivy.) Guard rails have been painted. We have erected street signs and caution signs. Safety lines and crosswalks have been painted. Gravel roads have been graded. The South Burial Grounds on West Bacon Street were mowed and trimmed during the summer months. Litter was picked up in areas throughout the town. Trash barrels were painted and located throughout Plainville.

Garage Repairs and Maintenance:

New garage doors in the old building have cut down some heat loss. Plastic storm windows were made and put on all the windows at the garage. We have started to insulate the ceiling of the old building and will continue this project. Overhead fans in the new garage have put the heat where it is needed. Garage trim has been painted and offices were painted.

Resurfacing of Town Roads:

The following roads were overlayed with Bituminous Concrete Type I-1:

Hillside Road

Rhodes Street from High Street to Bow Street

Berry Street

Wampum Street

Drainage:

Catch basins have been repaired and brought to street grade.

Snow Removal:

Our winter was cold with no major storms. The small storms used a great deal of sand and salt to assure safe traveling. All storm drains were cleaned of sand and debris from the winter storms. Snow plows were repainted and breakdowns of trucks were repaired.

Trash Pick-Up:

The town received a much needed truck from Superior Sanitation to assure our community of continued pick-up. I wish to thank the crew that mans this truck for their hard work in all kinds of weather. The following rules and regulations when adhered to will make an unpleasant task a little more bearable:

1. Six plastic bags as a limit.
2. Double bag garbage.

When a holiday, snow storm, or emergency situation falls on a collection day, all subsequent collection will be one day later. White goods collection for such items that cannot be placed in a rubbish compactor, and therefore cannot be picked up with regular rubbish, such as refrigerators, stoves, tree limbs or other large items, will be picked up twice a year in May and October.

In closing, I would like to thank the Highway Department employees and the members of the Police and Fire Departments for the help that I have received. To Robert Brothers and the Town Office employees, many thanks for the assistance and guidance that has been offered.

Sincerely,

RONALD FREDRICKSON
Highway Superintendent

REPORT OF THE BOARD OF ASSESSORS

During fiscal year 1981 the Board of Assessors continued an in-house revaluation. This revaluation will recognize the need to equalize valuations to comply with the Commonwealth of Massachusetts' Fiscal Year 1982 tax levy limitation of \$113,452,000. Results of this survey should produce values that are more consistent with the general sales patterns and should cause the taxpayer to pay a tax bill approximately the same in dollars as they paid in FY81.

It is our goal for FY 82 to proceed with up-dating all parcels to be ready to be Certified by the Commissioner of Revenue for a full and fair cash valuation for FY83.

On January 19, 1981 the Board of Selectmen and the Council on Aging signed a contract with GATRA. GATRA Grant helps to provide efficient and cost effective transit service. Your mini-bus continues to serve the elderly to doctors, dentists, hair dressers, emergency shopping, to and from the Drop-in Center, to town meetings and voting. We thank the men at the Fire Department who keep the bus in excellent shape.

Day bus trips and over-night trips have been enjoyed by many.

The Hot Lunch Program, including the Meals on Wheels, are served year round at an estimated donation of \$.75 per meal.

Average attendance at the Drop-in Center per day is 50 senior citizens.

The Sixth (6th) Annual Christmas Party was held at St. Martha's Church with 150 in attendance.

The monthly Blood Pressure Clinic is held on the first Tuesday of every month. Mrs. Roberta Burns, R.N. from the Community Health Agency, is at the Drop-in Center every Wednesday from 10:30 to noontime to help any senior citizen with a medical problem.

The number of senior citizens in the Town of Plainville is approximately 906. Our Newsletter continues to go to press ten times a year and is mailed to 684 senior citizens in the town.

Robert Brothers in February helped many senior citizens to fill out their income tax forms.

Our sincere appreciation to the local clubs and organizations, the local merchants, Town Departments, teachers and instructors, Council members and staff for the fine help they have given us this year.

REPORT OF THE VETERANS' AGENT

To the Honorable Board of Selectmen:

Gentlemen:

Submitted herewith is the Report of the Veterans' Agent for the Town of Plainville for the period July 1, 1980 to June 30, 1981.

All applications for Veterans' services during the period were approved by the State Commissioner of Veterans' Services. Fifty percent of all monies paid to recipients by the Town will be reimbursed by the Commonwealth of Massachusetts.

Approximately 208 requests for Veterans' Services were received during this period.

Respectfully submitted,

DONALD C. SOULE

Veterans' Agent

REPORT OF THE PLANNING BOARD

To the Honorable Board of Selectmen:

Gentlemen:

The year was an active one for the Planning Board, and the following is a summary of our activities.

The Board considered twenty Form A Applications (Approval under the Subdivision Regulations not required) of which it approved fourteen. In addition, the Board considered four applications for subdivisions, three of which were Definitive Plans, and one of which was a Preliminary Plan. Two of these plans were approved, and two were disapproved.

In the course of the year the Board held a total of nine public hearings to consider both subdivisions and proposed zoning changes.

The Planning Board sponsored six articles for the Town Warrant. Two articles requested funding for the Board to enable it to meet its technical responsibilities by contractually hiring expert help. The Town Meeting voted one Article which approved \$6,000 for the Board's use; the Board withdrew the other article. The other four articles dealt with proposed zoning changes of which the Town Meeting approved one.

In this coming year the Board, in addition to its routine functions, will be working on revising the Subdivision Control Regulations for the Town, as well as considering new regulations to protect the Town's water supplies. We encourage all concerned citizens to attend our meetings and hearings to express their views on these and other matters.

We wish to thank all the Town Officials and Town Departments for their cooperation during the past year.

Respectfully submitted,

Dag Hultgreen, *Chairman*

REPORT OF THE HISTORICAL COMMISSION

To the Honorable Board of Selectmen:

Gentlemen:

It is again with pleasure that we, the Plainville Historical Commission, submit our Annual Report of activities for the period July 1, 1980 through June 30, 1981.

We continue to support and work along with the North Attleboro Historical Commission and Historical Society in accepting donations for the covering and protection of the Angle Tree Stone.

It is our desire to express our appreciation to Clayton Cate for his many reprints of old pictures of Plainville, and to those who donated pictures of the 75th Jubilee Parade.

Our Commission was indeed fortunate to procure the use of a room in the Town Hall for storage of historical items. Anyone wishing to donate pictures, scrapbooks or items of Plainville may do so by contacting any member of the Commission.

The Historical Commission consists of the following members: Edith Parastatides, Secretary; Barbara Parmenter, Treasurer; Thomas Parmenter, Chairman; John Bowmar, Vice-Chairman; Barbara Fluck, Helen Cobb and George Curtis. Associate Members are Richard Plante, Rosalthe Sorrento, Adrian Wheeler, and Kathleen Sandland.

REPORT OF THE DOG OFFICER

Honorable Board of Selectmen

Town of Plainville, MA

Dear Sirs:

During 1980 the Dog Officer responded to 251 calls for assistance resulting in:

80 dogs impounded — of which

43 were returned to their owners — while

37 were euthanized.

There were:

7 chickens

17 turkeys

1 rabbit

1 sheep and

3 ducks killed by dogs.

A total of 8 orders of quarantine resulting from dog bites on persons were imposed by the Dog Officer.

The many telephone complaints received of dogs tearing up trash containers could be reduced by dog owners restraining their pets on trash pick-up days and by trash owners separating attractive garbage from other trash.

My thanks to all departments for their co-operative efforts during 1980.

Respectfully submitted,

John W. Cowley

Dog Officer

REPORT OF THE SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen:
Town of Plainville

Gentlemen:

I hereby submit my report as Sealer of Weights and Measures for the Fiscal Year ending June 30, 1981.

Salary — (Fees Received)		<u>238.00</u>
Balance		\$ 0.00
Expenses:		
Budget Allowance		\$200.00
Supplemental Request for Replating Test Weights due to Request of State Bureau of Standards		<u>210.00</u>
		\$410.00
Cost of Replating — Mel Ric Plating Co., Pawt. R.I.		\$168.00
Travel to Boston — Bureau of Standards		9.90
Hobbs & Warren — Supplies		<u>20.50</u>
		\$198.40
Unexpended Balance		\$211.60

After refinishing the weights, they were taken to the Bureau of Standards in Boston, Mass. for recalibrating. All were approved except four — 1 ($\frac{1}{4}$ oz.), 1 ($\frac{1}{8}$ oz.), 1 ($\frac{1}{16}$ oz.), and 1 ($\frac{1}{2}$ oz.). However, as we have a duplicate of each of these between the state set and the town set, it will not be necessary to replace the above.

Respectfully submitted,

REPORT OF THE PLAINVILLE CELEBRATION COMMITTEE

To the Selectmen of Plainville:

A group of citizens formed two months prior to the Annual Town Meeting to plan a special day for the people of Plainville. We inserted an article in the warrant asking the town to appropriate the sum of \$3,500 to be used for this celebration and the monies realized be put into a special fund for future celebrations. This article met with the approval of the voters and we were well on our way. Twelve citizens of Plainville went before the Selectmen and were appointed to this special committee which became known as the Plainville Celebration Committee.

Edwin Harrop was elected Chairperson; Ted Brauner, Vice-Chairperson; Harriet Koshgarian, Secretary; and Frank Sorrento, Treasurer. Other members of the Committee consisted of Judy Gale representing the Plainville United Methodist Church; Rosalthe Sorrento, the Girl Scouts; Skip Wade and Raymond Lewicki, the American Legion; Darlene Young and Marge Edwards, the JC Wives; Natalie Rammel, Kappa Sigma Sorority; and Dick Compton, the Lions Club.

Also Beverly and Bob Bedard, Marion Wall, Kevin Sinksen, Jim and Linda Doty, Karen Ganamian, Ron Edwards, Geraldine Perry, and Jim Desrochers joined our Committee.

The separate committees formed were as follows: Natalie Rammel — Tickets, Rosalthe Sorrento and Judy Gale — Children's Parade, Dick Compton — Entertainment, Peter Marchese — Field Events, Marge Edwards and Darlene Young — Paper Products and Publicity, Rosalthe Sorrento — T-Shirts, Judy Gale — Balloons, Harriet Koshgarian and Rosalthe Sorrento — Food, Lions Club — Cooking of Food, Karen Ganamian — Clown Painting on Children's faces, Jim Desrochers — Historian, Kevin Sinksen — Photographer, Bob Bedard and Harriet Koshgarian — Raffle Gifts, Bob and Beverly Bedard — Raffle Tickets, Michele Nadeem — Hostess Emcee and Tom Cutty and Bill Alley — Host Emcees.

We, the Committee, wish to thank the local businesses for their donations especially Engelhard Minerals and Chemicals Corp. for sponsoring the Men's Chorale of Boston, Whiting and Davis, Hilsinger, Brett and Scott Beyersdorfer for conducting the hayrides, the WARA sponsors who made it possible to have radio coverage for fourteen days, the children who made up the parade and participated in the field events, and the townspeople for supporting us — for without their support we would not have had a highly successful Saturday Spectacular in the park.

Respectively submitted,

HARRIET KOSHGARIAN
Secretary

REPORT OF THE CAPITAL EXPENDITURES PLANNING COMMITTEE

To the Honorable Board of Selectmen, Finance Committee, et al:

We are pleased to submit the following report of the activities of the Capital Expenditures Planning Committee for the period ending June 30th, 1981.

Three requests for Capital Expenditures were submitted for the Committee's action. One request came from the Highway Department, one from the Water Commissioners, and one from the Fire Department. The request from the Fire Department was an automatic review of a six year plan which was submitted to the C.E.P.C. last year.

The action taken on the request from the Highway Department was a unanimous vote for the first two items of a four year plan. The C.E.P.C. recommends the sum of \$50,000.00 for the improvement to Town roads and an additional \$50,000.00 for drainage improvements. In voting for this appropriation the C.E.P.C. requests that the Superintendent of Highways include a masterplan of specific sites for road and drainage improvements. The C.E.P.C. wishes to thank retired Highway Superintendent Everett Skinner for his requests for Capital Expenditures, and also we wish to thank the then Acting Highway Superintendent Ron Fredrickson for his assistance on acting on the requests.

The action taken on the request from the Fire Department was a unanimous Yes vote for two expenditures — one for \$7,500.00 for a Fire Chief's car, and one for \$2,500.00 for the replacement of hose. The C.E.P.C. did not recommend a request for coats, boots and helmets and a request for two-way radios was not favorably acted upon. The hose request was originally for \$5,000.00 but was halved after consultation with the Fire Chief, Clarence Skinner. The C.E.P.C. did not approve of the Chief's car without much discussion. In light of the repairs that are facing the present automobile, however, we believe it is in the best interest of the Town to replace the vehicle. The C.E.P.C. thanks Chief Skinner for his assistance in reviewing his request.

The action taken on the request from the Water Commissioners was a unanimous vote not to recommend an expenditure of \$1,017,750.00 over a six-year period at \$169,616.00 per year. Although the C.E.P.C. recognizes the need for water sources and services, they believe that an expenditure of this magnitude is not in the best interest of the Town under the present economic conditions.

All requests for Capital Expenditures have been attached to a copy of this report submitted to the Finance Committee and the Board of Selectmen who may wish to include them in their annual report.

Respectfully submitted,

The C.E.P.C.

REPORT OF THE COMMUNITY HEALTH AGENCY, INC.

EXECUTIVE DIRECTOR

Community Health Agency, Inc. is a non-profit corporation headed by a full-time qualified Executive Director.

BOARD OF DIRECTORS

There are a maximum of 24 members on the CHA Board of Directors. They serve without pay and are drawn from the eight communities served by the agency.

The Board of Directors and staff of CHA look forward to growth and the development of new services to fulfill the medical and personal care needs of Plainville.

Community Health Agency, Inc. (CHA) provides Health Care to patients in their own familiar surroundings at home, immunization and screening clinics, and counseling clinics for senior citizens. The two major categories of services are: (1) Board of Health and Preventive Services and (2) Therapeutic Services.

BOARD OF HEALTH SERVICES

As agents of the Board of Health in Plainville, CHA schedules clinics in the town. At these clinics, immunization against diphtheria, whooping cough, tetanus, measles, mumps, rubella and polio are offered without charge. Also, tests for lead paint poisoning and tuberculosis are provided.

To insure the general welfare of a community, CHA is the agency appointed to conduct follow-up in cases of reportable communicable diseases (tuberculosis, hepatitis and salmonella, for example).

Tuberculosis testing is available in the CHA office and at clinics for contacts or suspected contacts of a person with that illness.

Visiting nurses provide education, support and care for the expectant mother and family in the pre-natal and post-partum periods. They also care for premature infants and other selected newborns referred by a physician, hospital or other recognized agency. Families may initiate a request also.

CHA provides free health screening techniques (including blood pressure checks), dietary guidance, and health counseling to senior citizens at the Drop-in Center.

The following statistics are for patients seen in Plainville in 1980:

Total Number of Visits	59
Total Number of Patients	29

CHA Home Health Aide Home Visits in Plainville 101

Home Health Aide Visits Purchased from Contracting Agencies 437

According to agency policy, therapeutic services may be provided only with the order of a physician. In addition, home health aides are supervised by registered nurses on the CHA staff. The agency has home health aides on staff, and contracts for additional aide services as patient needs dictate.

The community health nurse can be the person welcomed into a home during a stressful time — to facilitate patient recovery by adapting health care regimes (for diabetes care, for example) to the home environment, and by helping patient and family fulfill patient needs at home.

Disruption can be avoided in the lives of young children when a CHA staff member is available to care for a parent at home.

In 1980, this agency made a total of 24,301 home and office visits; 10,939 nursing; 2,907 physical therapy; 261 speech therapy; 305 occupational therapy; 88 medical social work and 9,801 home health aide visits. The trend for 1981 reflects an increase in all services. The area served by CHA is as follows: Attleboro, Easton, Foxboro, Mansfield, North Attleboro, Norton, Plainville and Seekonk.

REFERRALS

CHA services may be requested by:

- discharge planning service in hospital or nursing home
- physician
- family member
- friend
- other community agency

Self-referral is encouraged for any category of service.

CHARGES AND FUNDING

There is no charge to the patient for any Board of Health service. The Board of Health in Plainville underwrites CHA services rendered on their behalf to residents of the community. The services are subsidized through tax monies allocated by the Board of Health in the town.

There is a service charge for each home visit of a therapeutic nature made by CHA.

Of chargeable visits, approximately 98% of our patients have Medicare, Medicaid, or private health insurance to cover the services provided by this agency.

Sincerely,

Janet T. Rhind (Mrs.), *Office Supervisor*

REPORT OF SELF HELP INCORPORATED

Self Help, Inc., is greater Brockton's anti-poverty agency dedicated to improving the quality of life of limited-income individuals and families, and making all segments of the community responsive to the needs of limited-income, disadvantaged and minority needs.

During the program year ending September 30, 1980, Self Help, Inc. received a total funding of \$6,088,906 and provided 273,916 direct services to the area's limited-income individuals and families. Plainville residents received 88 direct services totaling \$29,253.00 during our program year.

The total funding of 6 million dollars does not tell the real value of human services delivered to the area as a whole. Self Help's funding enabled us to mobilize an additional \$2,411,094 of other community resources such as CETA, Commonwealth Service Corp. and local city and town contributions as well as volunteers. The gross volume of Self Help, Inc. during the past program year was \$8.5 million.

Self Help currently employs 178 individuals, many of whom are limited-income and minorities.

We feel that the program year October 1, 1979 to September 30, 1980 was a successful one for Self Help, Inc. and very helpful to our limited-income population. We thank the area's Board of Selectmen and town volunteers for helping to make our program a success.

REPORT OF THE NORFOLK COUNTY MOSQUITO CONTROL PROJECT

The Operational Project Program integrates all proven technologies into a system of mosquito control that is rational, safe, effective and economically feasible.

All mosquito eggs need water to hatch and to sustain larval growth.

Source Reduction Work: Our primary efforts are concentrated on the draining of shallow, standing, stagnant water and the maintenance of existing flow systems which contribute to mosquito breeding sources.

Drainage ditches cleaned.....	7203 feet
Brush obstructing drainage cut.....	1105 feet
Culverts cleaned and opened.....	22 count

Larviciding: Treatment of mosquito larvae during aquatic development is the next most effective control effort.

Aerial applied larvicide.....	280 acres
Larvicide by backpack and mistblowers.....	80 acres

Adulticiding: The suppression of flying adult mosquitoes becomes necessary when they are numerous, annoying or threatening to residents.

Adulticide mistblowing from trucks	3820 acres
Adulticide U.L.V. from trucks	4320 acres
Catch basis application — adulticide and larvicide.....	340 count

Surveys, inspections and monitoring in support of our programs include locating and mapping breeding areas, larval and adult collections and fieldwork evaluations leading to better drainage.

The Project received 103 calls from residents for information and assistance.

Respectfully submitted,

ALBERT W. HEUSER

Superintendent

REPORT OF THE SOUTHEASTERN REGIONAL PLANNING AND ECONOMIC DEVELOPMENT DISTRICT

During 1980 the Town of Plainville continued its membership in the Southeastern Regional Planning and Economic Development District. SRPEDD is a planning and economic development agency formed under state law to serve communities in southeastern Massachusetts by providing a cooperative approach to regional issues.

The District is governed by a Commission consisting of a chief elected official or designee and a planning board representative from each participating municipality and six low-income and minority representatives. Plainville's Commission representative from the Planning Board is Stanley Widak, Jr. The Board of Selectmen had no representative serving on the SRPEDD Commission for 1980.

In addition to regional planning and economic development, SRPEDD assists member cities and towns. Through the free municipal assistance program, each community receives time for local projects and assistance in preparing applications for federal and state funds.

The agency's purpose is to plan for regional land use, economic development, housing, transit, transportation, solid waste, energy resources and conservation, and air and water quality. Local participation in these regional plans enables communities to be eligible for federal and state dollars.

Services to Plainville this past year included:

- Preparing maps of recharge areas for town's Water Supply Protection Program
- Participating in the Ten Mile River ACTION Committee Conference
- Assisting in the preparation of a Community Development Block Grant application
- Presently assisting town in preparation of a Housing Assistance Plan
- Providing information on establishing an Industrial Development Corporation
- Assisting the town in developing a proposal for shared planning and related services with other towns.

Regional plans completed this year benefitting all communities include:

The Overall Economic Development Program (OEDP) which makes member communities eligible for EDA funding and a 10 percent bonus for public facility projects.

The Transportation Improvements Program (TIP) which lists major projects in each community for federal and state funding. A project must be included on the TIP in order to be eligible for these funds.

SRPEDD represents the collective will of its member communities. As the responsibilities and problems of municipalities become increasingly complex, the District can provide technical assistance to local boards, encourage cooperation among communities, and provide a comprehensive approach to issues that cross local boundaries.

Respectfully submitted,

ALEXANDER V. ZALESKI
Executive Director

REPORT OF THE WATER COMMISSIONERS

To the Honorable Board of Selectmen:

Gentlemen:

The following is a report of the Water Department for the year ending June 30, 1981.

In the spring of 1981 all three wells were pulled and cleaned and the pumps reconditioned. All wells are in excellent working condition.

The water table has never recovered due to the drought conditions so it is necessary for the voluntary water ban to still be in effect at this time. We would like to thank all those who complied with the ban this past summer.

The land on Cross and High Streets should be purchased in the near future for a future well and pumping station site.

We wish to thank Kathleen Parker, the Honorable Board of Selectmen, Finance Committee, Camp Dresser & McKee, Inc. and all other departments who in any way assisted the Water Commissioners during the year 1981.

REPORT OF THE SEWER COMMISSIONERS

To the Honorable Board of Selectmen:

Gentlemen:

The following is a report of the Sewer Department for the year ending June 30, 1981.

The newly installed collection system is working very efficiently and to date about 40 percent of the connections have been made. All property on the sewer line should be tied in within the five year period which started the summer of 1980. All town buildings have been connected including the Wood School.

Upon receiving completed plans on the Home for the Elderly, the work should be completed this fall or early next spring eliminating a bad health hazard.

We wish to thank Kathleen Parker, the Honorable Board of Selectmen, Finance Committee, Camp Dresser & McKee, Inc. and other departments who in any way assisted the Sewer Commissioners during the year 1981.

REPORT OF THE PLAINVILLE HOUSING AUTHORITY

To the Honorable Board of Selectmen:

Gentlemen:

We hereby submit our report for the year ending December 31, 1981.

The Board accepted with regret the resignations of Melvin F. Dwyer as Executive Director and Dorothea F. Dwyer as Accountant. We wish to thank them for their thirteen years of service and dedication.

The Board appointed Mrs. Patricia Peavey to be the new Executive Director.

There were three vacancies in our project this year, and these apartments were filled from our Waiting List.

This year we are in the process of tying into the Town sewerage system on East Bacon Street and anticipate it will be finished by the spring of 1982.

We wish to extend our thanks to the Plainville Lions Club for their continued interest in the Housing Authority.

We wish to thank the Fire, Police and Highway Departments for their continued excellent co-operation.

Respectfully submitted,

Annual Report
of the
SELECTMEN
and
BOARD OF HEALTH
OF THE
TOWN OF PLAINVILLE, MASSACHUSETTS

FOR THE YEAR ENDING JUNE 30, 1981

REPORT OF THE BOARD OF SELECTMEN and BOARD OF HEALTH

To the Citizens of Plainville:

The following constitutes a combined report of the two boards for the fiscal year ending June 30, 1981.

At the Town Election in April, John F. Stone was re-elected to a three-year term.

Our Monday night meetings have all been open to the public and were properly posted with the Town Clerk.

The usual consideration was given to requests for both renewals and new issuances for licenses and permits, and our Sanitary Inspector and Building Inspector and their able Assistants have served satisfactorily in advising us on these matters.

There have been no court judgements of any sort assessed against the Town during this reporting period.

Flu clinics were held jointly with North Attleboro and Mansfield several times during the year to assure that all residents who wished to receive a flu shot would have the opportunity to do so.

July, 1980 witnessed Plainville's celebration of its 75th Anniversary (April 4, 1905) with a gala parade and full day of activities at the Town Park. Many citizens worked hard and long to make this celebration possible, and they did themselves and Plainville proud. This celebration will long be remembered. Later on in the year the Board, at the request of a group of citizens, appointed a "Plainville Celebration Committee" for the purpose of planning and implementing a celebration program for the following year.

The Cable TV licensing process was initiated and completed and culminated in the award of a license to Rollins Cablevue, Inc. to install and operate a 52 channel cable TV system. It is projected that the system will be operative in early 1982. A Cable TV Advisory Committee was appointed to assist the Board in overseeing the operation of the system.

A committee was appointed to assist the Board in making recommendations regarding the control of gypsy moths. The committee generated a comprehensive report which was discussed at an advertised public hearing in March, 1981. At the subsequent Annual Town Meeting, a petitioned article to appropriate funds for the control of the pests was defeated. In May and June, Plainville was infested with the caterpillars and found itself with no funds to help the situation. The Board resolved to take action in the near future to prevent any recurrence of this situation.

The Town applied for and received an on-going grant from GATRA for the operation and administration of the Council-on-Aging's mini-bus which nets the Town in excess of \$10,000 per year.

The "New Spirit of '76" Fife & Drum Corps represented Plainville in Boston's 350th Anniversary Parade.

The Board encouraged and participated in activities to promote the private construction of a building to appropriately house and display the Angle Tree Stone. These activities are sponsored by the North Attleboro Historical Society with assistance from the Plainville Historical Commission.

The Board saw significant activity in the granting of Sewer Installer Permits due to the inception of the use of Plainville's sewer system which is already on its way to alleviating significant problems in the Town's center.

The Board has continued its unrelenting struggle to make the long spoken of Resource Recovery Facility a reality at the landfill site. The 128 West Resource Recovery Council has approved a contract with Wheelabrator-Frye Corp. to construct and operate the facility, and the next year will be spent in having towns involved approve contracts to use the facility. As soon as sufficient tonnage is committed, construction will start. The State has acquired the 17 acre site to demonstrate its commitment to the project.

The landfill is now leased and operated by the Laidlaw Corp. of Canada. Operation of the site has significantly improved since Laidlaw has taken over, and they have assured the Board of their commitment to construction of the Resource Recovery Facility.

On a sad note, the Board experienced the retirement of its Highway Superintendent, Everett W. Skinner who served the Town and its citizens faithfully for almost 40 years.

This year we were confronted with having to revamp management and fiscal policies as a result of the passing of "Proposition 2½". All the Town's departments, committees, and boards did an outstanding job in rethinking their roles, adjusting their programs and reviewing their own budgets which allowed us to comply with the requirements of 2½ with relatively few problems and with no real compromise of the Town's ability to provide the services we've been providing. We just do them better and more efficiently.

In summary, this has been a very active, exciting and successful year, and we wish to thank all who helped in any way to make our job a little easier, with special thanks to the Town Office Staff and the citizens of Plainville.

Respectfully submitted,

EDWARD S. SERWINSKI, *Chairman*

RAY P. FELIX, *Vice Chairman*

JOHN F. STONE, *Clerk*

TERMS AND MOTIONS USED AT TOWN MEETING

1. QUORUM — 60 registered voters are needed to conduct a meeting.
2. ARTICLE — That which is printed on the Warrant. The sums of money printed may not be increased but may be decreased.
3. METHODS OF VOTING —
 1. Ayes and Nays.
 2. Standing Vote — required on all votes that require a $\frac{2}{3}$ vote.
 3. Secret Ballot — a motion for a secret ballot is in order at any time. The motion requires a second, and needs a simple majority to carry.
 4. The Moderator may determine the method of voting on any article.
 5. To put an article on the floor requires a motion and a second. Discussion of the article follows. An article may be amended twice. After disposition of the second amendment by a negative vote, it may be amended again. No more than 2 amendments may be on the floor at one time. All amendments must follow the general theme of the article.
 6. To limit or cut off debates, there are basically four methods:
 - A. A motion to lay an article on the table requires immediate action — it is neither amendable nor debatable, requires a $\frac{2}{3}$ vote, and if carried defeats the article.
 - B. A motion to move the previous question is neither amendable or debateable, requires a $\frac{2}{3}$ vote, and if carried, requires an immediate vote on the motion that is on the floor, either the original motion or as it is amended.
 - C. A motion to lay an article on the table to a particular time follows the same procedure as a motion to table, but if carried, places the article either in a different sequence or at a different time.
 - D. A motion to postpone indefinitely may also kill an article. It is however, debatable but not amendable, and requires only a majority vote.
4. POINT OF ORDER — Requires immediate action by the Moderator and is used to question the legality of the Moderator's decision.
5. MOTION TO ADJOURN OR RECESS — Amendable and debatable; majority vote required.
6. MOTION TO DISSOLVE — Not amendable or debatable; majority vote required.
7. MOTION TO RECONSIDER AN ARTICLE — May be given at any time. There may be only one reconsideration of an article. It is debatable but not amendable, and requires a $\frac{2}{3}$ vote.

These are the basic guide lines of Town Meeting Government. While they are the rules, common sense is still the best guide line.

The Moderator is always willing to help any voter get his or her motion in the proper form to be presented.

All Motions and Amendments must be presented in writing to the Moderator.

If you have any question on procedure, please ask — you will get an answer.
